

Grade Level	Course Name	Syllabus Name	Standard Description	Standard Name	Standard Code	Description
Grade 3SE	Biology	Life science, secondary education, third year, sociology and economics	Neurobiology, human behavior and health	Neural communication	CH1	activity1, the nervous system; an organized network. activity2, nervous information; nature and propagation activity3, synapse activity4, Chemical perturbation of the synapse Chapter's exercises
Grade 3SE	Biology	Life science, secondary education, third year, sociology and economics	Neurobiology, human behavior and health	Drugs and drug addiction	CH5	activity1, drug addiction, an artificial paradise. activity2, drug's mode of action
Grade 3SE	Biology	Life science, secondary education, third year, sociology and economics	Science and economy	Biotechnology and immunology	CH1	activity1, Principles of biotechnology. activity2, Recombinant DNA; therapeutic drugs activity3, Recombinant DNA; vaccine production. activity4, Monoclonal antibodies and their applications.

Grade 3SE	Biology	Life science, secondary education, third year, sociology and economics	Science and economy	Biotechnology, agriculture and environment	CH2	activity1, Searching for performing species. activity 2, the transfer of genes activity3, the cost of progress activity4, the struggle against pollution.
Grade 3SE	Biology	nutrition and health	The basic principles of a balanced diet	diet	CH2	Food supplies
Grade 3SE	Biology	nutrition and health	The basic principles of a balanced diet	diet	CH2	quantitative needs: proteins
Grade 3SE	Biology	nutrition and health	The basic principles of a balanced diet	diet	CH2	qualitative needs: vitamins
Grade 3SE	Biology	nutrition and health	The basic principles of a balanced diet	diet	CH2	qualitative needs: minerals
Grade 3SE	Biology	nutrition and health	The basic principles of a balanced diet	diet	CH2	to make a balanced diet
Grade 3SE	Biology	nutrition and health	The basic principles of a balanced diet	diet	CH2	the fate of nutrients
Grade 3SE	Biology	nutrition and health	Nutritional diseases	characteristics, causes and prevention	CH3	Food deficiency
Grade 3SE	Biology	nutrition and health	Nutritional diseases	characteristics, causes and prevention	CH3	diseases of excessive food intake

Grade 3SE	Biology	nutrition and health	Nutritional diseases	characteristics, causes and prevention	CH3	obesity, affliction of rich countries
